Driver requirements

Only the Hirer and the additional drivers identified in the preceding Special Conditions can drive the vehicle. For that, the identification documents and the respective valid driving licenses must be presented at the beginning of the rental period, before collecting the vehicle. The Hirer and the additional drivers must be over 21 years old, when signing the rental contract, and must present a valid B class driving license (light vehicles).

Regarding the previous, as to the valid driving license, it's also applicable to the driving licenses issued by E.U. countries, as for those issued by the Federal Republic of Brazil, the Republic of Cape Verde, the Republic of Angola, the Principality of Andorra, the Democratic Republic of São Tomé and Príncipe, and the Republic of Mozambique. In case the Hirer and the additional drivers are not residents in an E.U. country or in any of the referred countries in the previous, apart from the minimum age requirement, they must also present a valid international driving license.

Deposit/credit card

The security deposit can only be made through a valid credit card (VISA or MASTERCARD). At the vehicle delivery, the Hirer is required to make a security deposit in proportion of the excess amount, according to the chosen insurance coverage. This amount will be frozen in the Hirer's credit card by the Rental Firm, to ensure the excess payment, in the event of robbery or accident and any other VEHICLE damage during the rental period. If the security deposit amount is not authorized by the bank or by the credit card company, the contract cannot be executed and the VEHICLE cannot be delivered. In this case, there will be no entitlement to the Hirer for reimbursement of amounts paid. The security deposit will be returned by the Rental Firm to the Hirer at the end of the rental period, after an inspection made by a Rental Firm's employer, who shall state that the VEHICLE is in the same condition than when it was collected by the Hirer. In the event of damage detection, the Rental

Firm will establish the amount the Hirer must pay, which will be deducted to the security deposit given as guarantee.

If the vehicle is operated in a non-proper way, the Hirer is held liable for the repair costs, if the resultant damage cost is superior than the security deposit value. If the damages are not detected immediately, the Rental Firm has a 10-day period, from the contract termination, to cash or to refund the security deposit or to claim the difference between settlement and the cost of faults or defects
